

# WHEN LIVES ARE ON THE LINE

RELIABILITY & SECURITY MATTERS

## **ADVANCED** INDOOR SYSTEMS

MODERN SOLUTION | PURPOSE BUILT TECHNOLOGY

Engineering Advancement Since **1993**

**Intelligible Acoustics Design**

SiRcom has redefined the industry standard for outdoor warning sirens, delivering clear, intelligible alerts that can be heard from miles away. Our commitment to engineering excellence and innovation sets us apart from imitators, as our intelligible sirens showcase pioneering design and advanced audio drivers. Since 1993, we have remained at the forefront of acoustics technology, continuously pushing boundaries and raising the bar for others to follow. Trust SiRcom to provide unmatched sound quality and clarity, ensuring that crucial information is effectively communicated in life safety situations.

**Continuous Advanced R&D**

SiRcom engineers continually enhance sirens and components for maximum reliability, security, and effectiveness. Our investment in modern technologies like machine learning and wireless secure communications simplifies life safety solutions. Today, SiRcom is the trusted choice of public safety officials, setting the gold standard in the industry. Experience advanced life safety technology with SiRcom

**Simplifying Chaos Management**

SiRcom offers fully integrated indoor and outdoor life safety solutions for organizations of any size or industry. When it comes to managing emergencies, our user-friendly solution provides reliable capabilities for effective communication. Trust SiRcom to safeguard lives and ensure the simplicity and effectiveness you need.

**TODAY** Most Capable Solution

SiRcom is capable of providing flexible purchasing options through our network of certified value-added resellers. Sole-source contract vehicles & cooperative purchasing services can help any public organization save time and resources.

## SiRcom's Full Mass Notification Suite & Integrations Capabilities

SiRcom offers a comprehensive solution that integrates all aspects of life safety alerting into a single, unified management system. Our solution encompasses a wide range of indoor and outdoor mass notification capabilities, including public address systems, alert displays/signs, electronic alerting (SMS text, voice calls, emails, social media posts, desktop alerts), FEMA IPAWS alerts, intelligible voice outdoor sirens, and various security/life safety sensors.

With SiRcom's SMART Alert Software (SiSA) at the core, organizations can centrally manage all endpoints and communication channels. This streamlined approach ensures efficient emergency management and public safety operations, enabling swift and effective communication during critical situations. Trust SiRcom to simplify life safety alerting, providing organizations with a unified and efficient solution that empowers effective and seamless communication in any emergency.

SiRcom is capable of providing flexible purchasing options through our network of certified value-added resellers. Sole-source contract vehicles & cooperative purchasing services can help any public organization save time and resources.

## World's Most Advanced Control Stations

The SiRcom SMART Alert Software (SiSA) is a state-of-the-art mass notifications management software. SiSA can be deployed to provide electronic mass notifications such as: Voice Calls, SMS Texts, FEMA IPAWS, Emails, and Social Posts. In addition, SiSA can manage all mass notifications and electronic security systems such as: Outdoor Warning Sirens, Indoor Notification Devices, Public Address, Panic Buttons, Nurse Call, Active Shooter Sensors, Access Control, CCTV, Intrusion Detection Systems and other networked hardware such as IoT sensors. As the most modern mass notification systems management software, SiSA can upgrade any existing legacy systems by integrating them into its modern management network. SiSA is the easiest and cost-effective way to upgrade any existing legacy mass notification and electronic security systems.

## Advanced Features & Capabilities

SiRcom's advanced amplification system design penetrates the atmosphere at a narrow band, focusing the beam directly at the audience, which results in significantly better sound pressure and higher intelligibility at significantly less power for a broader coverage range.

## Key Features

Secure GUI Log-In	Single Sign On (SSO)	Simple Menu Tabs	Customized Quick Menu
Multiple Map Options	Interactive GIS Maps	Set Custom Zones	Integrated FEMA IPAWS
Electronic Alerting	Unlimited Prerecorded Alerts	Text-To-Speech	Foreign Languages Translation
Live Warning Siren Alerts	Indoor PA Alerting	Integrate Electronic Security	Integrate Fire Life Safety

## Capable Solution

\*Components or major end items can be provided that meet the above specifications.

SiRcom is capable of providing flexible purchasing options through our network of certified value-added resellers. Sole-source contract vehicles & cooperative purchasing services can help any public organization save time and resources.
